

# Christmas Grinch Fruit Kebabs

The holidays and Christmas are quickly approaching so we'll be sharing a lot of fun holiday recipes and crafts with you in the next few weeks. These Grinch fruit kebabs are perfect for holiday parties or get your kids involved. They would be fun to take to a school Christmas party for your kids too.

These fun fruit kebabs take very few ingredients and are super easy to make! Plus, they are a healthy alternative for kids. Well, minus the marhmallows!

## Ingredients:

- Mini Marshmallows
- Green Grapes
- Strawberries, leafy tops removed
- Bananas, sliced

Additional Materials Needed:

- Toothpicks, skewers or lollipop sticks

**Directions to assemble kebabs:**

1. Pierce a green grape with the lollipop stick (or whichever stick or skewer option you choose) and slide through. On top of the grape, layer a sliced banana – followed by a strawberry (point facing up) and top with a mini marshmallow.

2. Follow this process until all fruit is used, or desired amount is prepared.

*Note: To keep banana slices from turning brown, place them in a bowl of lemon or lime juice (acidity) before assembling the kebabs. This will help them keep their bright color if you're making the kebabs in advance.*
